Advantage Six: Sani Jon® Dump Your Own Model SJHD 450DV

Fig. 1 Sani Jon® with 3" Dump Valve

Fig. 2 - Attach Bracket

Fig. 3 - Attach 90 Degree Elbow

Fig. 4 - Attach Dump Valve

After dumping the holding tank, pour several gallons of water to wash tank bottom and exit pipe.

Recharge holding tank with several ounces of EMJ 2075 with 5 gallons of water. In cold climates always add a salt water mix after you dump the tank.

This unit is shipped either completely assembled or 75% assembled. There is no extra charge for assembly.
