

# Sani Jon® Dump Your Own Model SJ 450D

Model SJ 450D (Dump Valve Toilet) Can Be Trailer Mounted

Fig. 1 Sani Jon® With 3" Dump Valve

Fig. 2 Attach Bracket

Fig. 3 Attach 90 Degree Elbow

Fig. 5 Attach Dump Valve

After dumping the holding tank, pour several gallons of water to wash tank bottom and exit pipe.

Recharge holding tank with several ounces of EMJ 2075 sanitation chemical with 5 gallons of water. In cold climates always add a salt water mix after you dump the tank.

This unit is shipped either completely assembled or unassembled. There is no extra charge for assembly
